

What Make Us Different...

TOP OF THE LINE PRODUCTS

All car washing products are procured directly from proud eco-friendly brands that manufacture non-toxic, natural car washing chemicals. This helps us prevent any damage to the ground water and prevent health risks to car owners.

Eco-Friendly

A traditional car wash can use over 70 gallons of water to wash one vehicle. We only need 500ml. of water to get your car looking as good as new

Safer on car point

Washed by high microfiber towels with biodegradable, harmless and concentrated solution, will give your car superior shine, remove hard dirt and protect car paint from sunshine. this carwash shampoo is plant-based, biodegradable, non-toxic and phosphate-free. It gently removes dirt and grime without removing wax or polish

Performed by the Best

our car washers go through training programs in order to give best results.
